# INSTRUCTION SHEET: HSLMGxxxxx
## LED LINK LINE JACK RJ45 SHIELDED, CAT.6$_A$

Strip 40 mm of the jacket and fold back braid, covering the jacket.

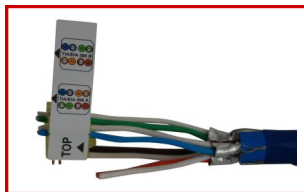

Fix the braid by use of insulating tape. 5 mm of braid have to remain uncovered to ensure the contact to the jack. Remove foil around pairs. 5mm of foil need to remain.

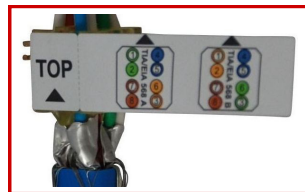

Cross the pairs acc. to TIA/EIA 568 A or TIA/EIA 568 B (see color-code on contact-block).

Open the twist of the pairs up to the foil.

Cut two pairs short by ca. 10 mm. Insert the longer pairs.

Insert the shortened pairs. Slip contactblock up to the foil.

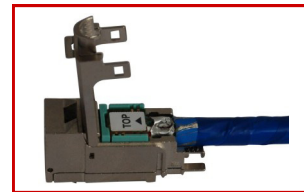

Insert contactblock with cable into the plier HSLTOOL02.

Press down plier to the stop position.

Put assembled cable …

… into the pull protector HSLTOOL03

… or into the jack.

Fix jack to the cable by use of the included cable-tie.
